ABOUT US

New Wave Kill is a band that emerges from the love of 80's post-punk, neofolk, and 90s grunge, approaching a sophisticated and stylish sound. Currently, the band is based in Madrid, Spain and it was formed by 4 (four) members: Felipe Vein, Iulia Richea, Juan Cordoba and Niko Aguirre.

VIDEO INFORMATION

We are looking to create a video for our first single "Between Shadows" which will come out on 16 October 2023. Between Shadows is a song full of energy and has lots of sound, synths, and a fast rhythm of drums with a very dark bass sound. It talks about how human has to wear a mask and pretend to be someone else in society and how much freedom you get from taking out that mask and being yourself.

Therefore we have in mind a great location called Claridge Hotel which has a minimalist art-deco shape and is abandoned, close to Madrid. We love to have particular lighting inspired by David Lynch & and Tim Burton styles.

The idea is that we will have some figurant dress all in black wearing a red mask which will be placed around the hotel, the balcony, the rooms, and on the streets. Then we get to a party and all the people get their masks down and all the hell goes crazy.

LOCATION

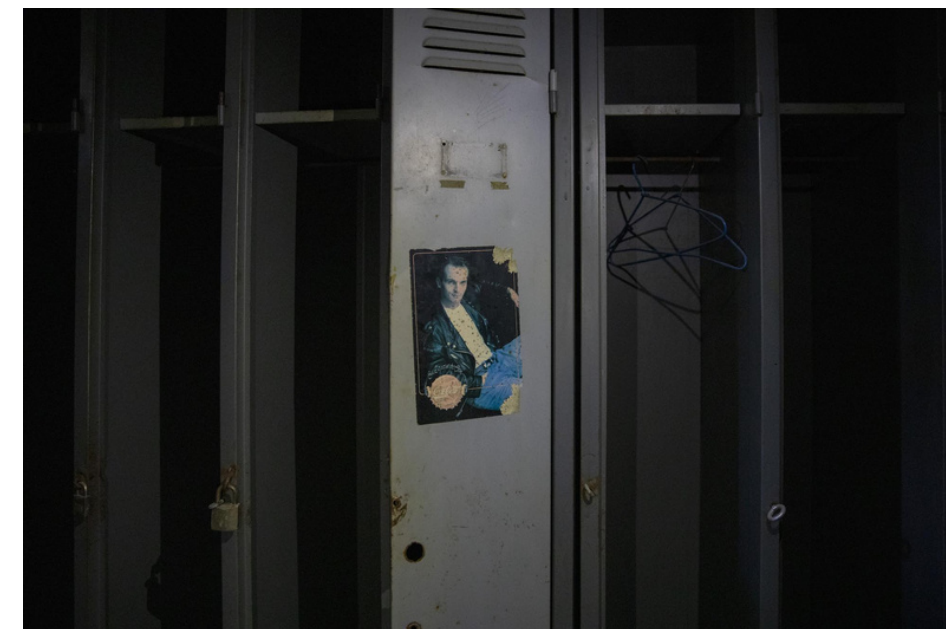

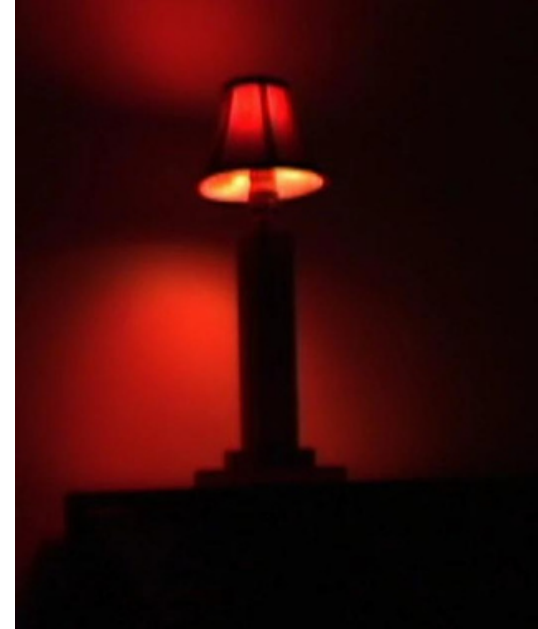

CLARIDGE HOTEL -It fell into abandonment at the end of the 90s when the clients of this popular hotel near Cuenca. It is the statement of brutalism architecture and its shapes are quite stunning.

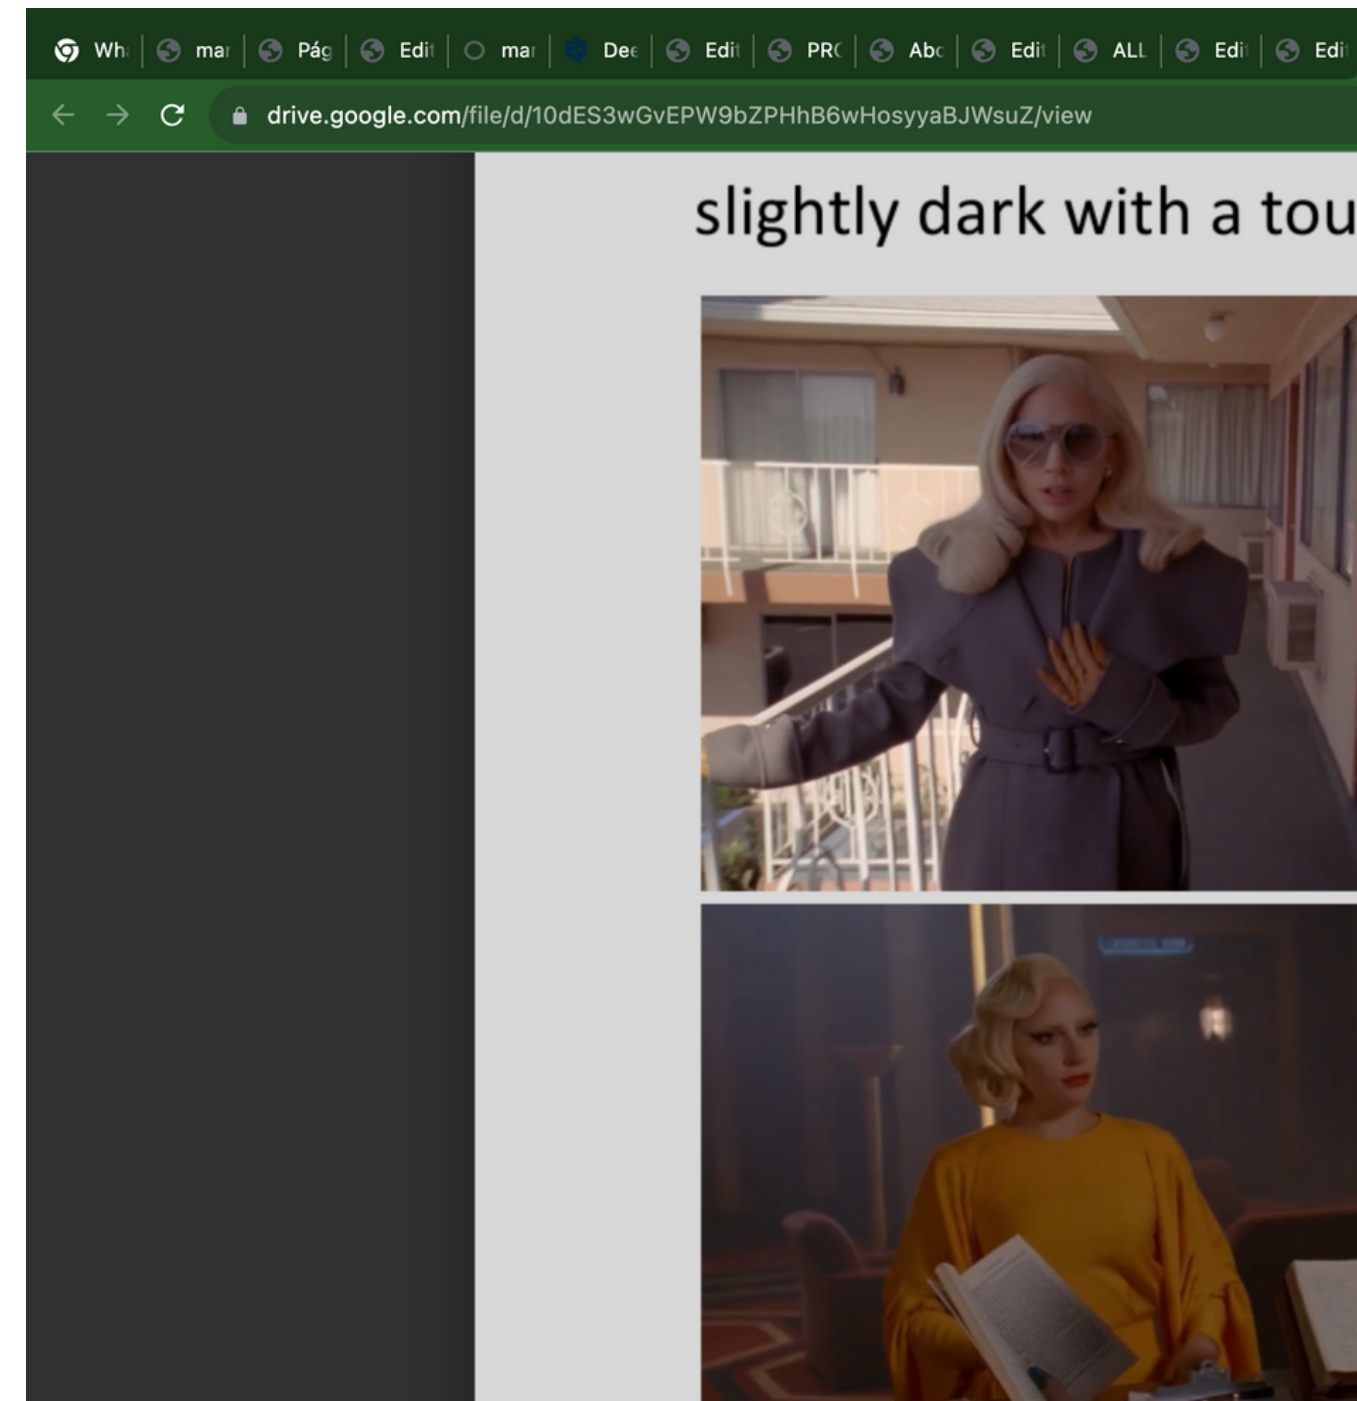

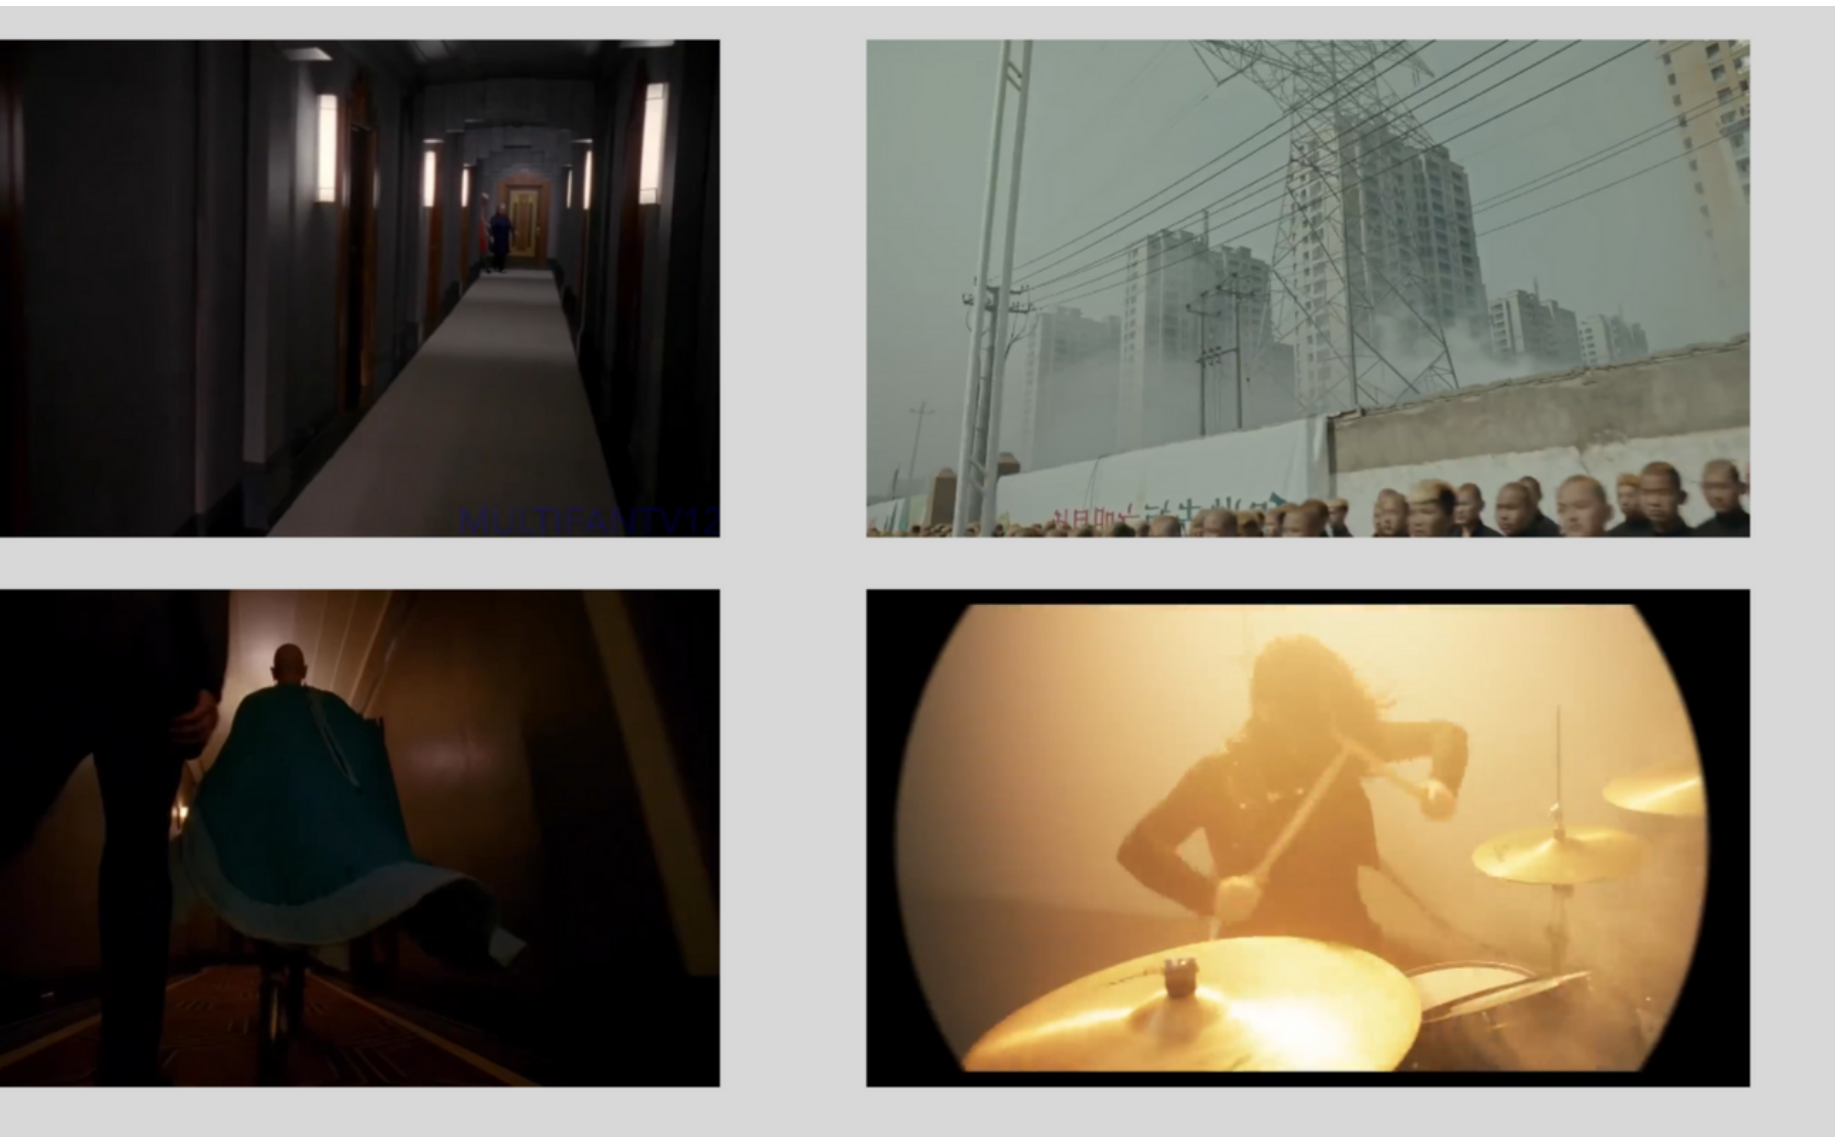

LIGHTING

LIGHTING

We love red, green, and mysterious diffuse light but not old, We would love to be modern combined with experimental lighting like in the movie of David Lynch or the movie "Only Lovers Left Alive", or "The Devils" movie
